

ISLAMI BANK BANGLADESH LIMITED
OPERATIONS WING, ENGINEERING DIVISION
PROCUREMENT OF COMPUTER HARDWARE
AND ACCESSORIES DEPARTMENT (PCHAD)
20, DILKUSHA C/A (9th Floor), DHAKA – 1000.

Amendment of some terms and conditions in the Tender document relating to Supply, Installation, Configuration, Deployment, Upgradation and Necessary technical support of Endpoint Security User License for 03 (three) years for centralized endpoint security solution of the Bank.

Annexure- II: A. Features of Product Compliance Sheet for Endpoint Security (Page no- 13)

Sl. No	Sl. No & Page No	Existing Features	Amendment
1	Sl. No- 16, Page- 14	Proposed solution should provide Self-protection from modifying or disabling Virus Scan Enterprise.	Proposed solution should provide Self-protection from modifying or disabling AV
2	Sl. No- 40, Page- 15	Management server should correlate threats, attacks, and events from endpoint, network, and data security as well as compliance audits to improve the relevance and efficiency of security efforts and compliance reports.	Management server should correlate threats, attacks, and events from endpoint, data security as well as compliance audits to improve the relevance and efficiency of security efforts and compliance reports.
3	Sl. No- 41, Page- 15	Proposed solution should use a scalable peer-to-peer methodology for querying information from all the endpoints in mere moments, with no extra hardware.	Proposed solution should use a scalable methodology for querying information from all the endpoints in mere moments, with no extra hardware
4	Sl. No- 43, Page- 15	Proposed solution should ensure that Only authorized software / applications / executable codes are allowed to run and provides tamper protection to them. Solution should be capable of creating white list for each system dynamically and no manual intervention in creating this list. Each white list created should be unique to each system and should not be a common list. Solution should be capable of locking down the system on the white list created above and prevent execution of nonwhite listed software / application / executable code and also prevent tampering of applications which are white listed above either on disk or on memory when running.	Proposed solution should ensure that Only authorized software / applications / executable codes are allowed to run and provides tamper protection to them. Solution should be capable of creating white list & black list based on the requirement of multiple departments of the organization. Solution should be capable of locking down the system on the white list created above and prevent execution of nonwhite listed software / application / executable code and also prevent tampering of applications which are white listed above either on disk or on memory when running.
5	Sl. No- 46, Page- 16	Proposed solution Should have a product to blocks stealth attacks with hardware assisted security approach.	Removed
6	Sl. No- 55 (e), Page- 17	e) Solution should support advanced scanning technology to correlate threat information and perform in-depth file analysis to detect emerging, unknown security risks through digital DNA fingerprinting, API mapping, and other file features.	Removed

 d

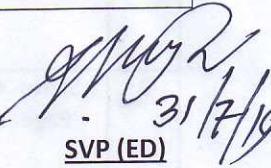

Annexure- IV: C. Bidders Evaluation Criteria (Page no- 19)

Sl. No	Sl. No, Page No & Criteria	Existing Note	Amendment
1	<p><u>Sl. No- 5, Page- 19</u></p> <p>Bidder's Endpoint Security solution deployment in Bangladeshi Banking/Financial institute/ Telecom/Reputed Group of companies/Government organizations.</p>	<p>*Consideration minimum 1000 License per deployment.</p> <p>*Per Bank/Financial institute deployment will carry 5 marks. Maximum 5 deployments will be considered</p> <p>Copy of Client Certification for successful completion and maintenance with name and contact details of signatory</p>	<p>*Consideration minimum 1000 License per deployment.</p> <p>*Per Bank/ Financial institute/ Telecom/Reputed Group of companies/ Government organizations deployment will carry 5 marks. Maximum 5 deployments will be considered</p> <p>Copy of Client Certification for successful completion and maintenance with name and contact details of signatory"</p>
